Ready for tomorrow!

From student to president

Collaboration and common understanding in all levels is the key factor to provide our young people skills which will meet our future needs and ensure Latvia's and EU competitiveness globally.

In a nutshell

Components of the project

- 5 schools
- Different regions
- All education levels: primary, secondary and higher
- Tablet PCs for one classroom, 3D printer in one school
- Teacher training
- Digital learning materials
- Project monitoring and evaluation

The background is a deep blue gradient with a subtle pattern of white dots, resembling a starry sky. Overlaid on this are several faint, white geometric shapes: concentric circles and arcs, some with arrows indicating a clockwise direction. These elements are positioned in the corners and along the right edge, creating a sense of depth and movement.

A journey of a thousand miles begins with a single step.
/Laozi/

The biggest benefit is happy kids with great future ahead of them.

Ready for tomorrow!
