To date, FacilityLive has patents protecting the entire technology in **43 countries** across **5 continents** including the prestigious US and EU patents.

The latter is in the software the most difficult to achieve in the world.

### WHY COOL?

“Most Knowledge Management vendors can only search content via a nonintegrated list, but FacilityLive can aggregate and correlate, through contextual mash-ups, all customer information, both structured and unstructured, from different source systems **in a unique, appealing, single interface”**

**“This unique combination of technology and methods is patented across 41 countries”**

## FacilityLive is the first non-UK company admitted to the **London Stock Exchange Elite Programme**

The screenshot shows the FacilityLive website with the ELITE program listing. The navigation bar includes links for Homepage, ELITE, Companies, Investors, Partners, News, and Login. The main content area features the FacilityLive logo and a search bar. Below this, there is a section for 'SOFTWARE & COMPUTER SERVICES' with a 'General Information' tab. The text describes FacilityLive as a new, highly disruptive, patented search platform that addresses all corporate, public administration and consumer information sources. It mentions that these domains are 30 times larger than the public web (indexed by Google), and are doubling in size every two years. The company delivers an entirely new search paradigm, which understands the structure, meaning and context of information (semantics), and uses that understanding to deliver precise search results. According to Gartner, FacilityLive's capabilities are unique, compelling and defensible.
